

Grove Garden Generator

41-43 Grove Street, South Hackensack, NJ

Client – Arcari & Iovino Architects, PC, Little Ferry, NJ

Installation of a new 100kW, 3-Phase Standby Natural Gas Generator at “**Grove Gardens**”, residential housing complex operated by Housing Authority of Bergen County, NJ. The project consisted of new emergency power distribution system and natural gas plumbing design to provide emergency power to all house loads, including the elevators and kitchen equipment.
